

Welcome

All of us have an idea about what our dream home landscape looks like. We all want to be able to create a gorgeous natural space on our property, that adds some life and character to our homes. It is something that you simply shouldn't be settling for any less than the best with. Which is why, it always pays off to know who you can call, to help you transform your backyard. Let us handle all of your [landscaping](http://www.landscapingep.com) needs.

About Us

In the fine city of El Paso, TX, that team is ours, at El Paso Landscaping and Design. The number one source of landscaping services in El Paso, we serve residential and commercial clients with the highest standard of quality. Our expert team combine a number of years' worth of experience in the field and by now, know better than anyone else how to transform any boring garden space.

Services

We provide our clients with an [extensive list of landscaping services](#), encompassing completely custom design on every job. Through thoughtfully chosen landscaping features and a range of premium hardscaping features, we are able to provide all of the high-quality items that can help you to transform your backyard. Just let us know exactly what you see fitting into the space and you can bet that we will be able to make it a reality.

"El Paso Landscaping and Design did an incredible job designing and creating my new landscape. It is stunning to walk around and includes all of the features that I wanted. I'm so happy with the flowerbed arrangements and the new patio that they installed. I really can't recommend these guys enough!" Gina E

Concrete Installation

Concrete is a diverse material that can fit in seamlessly with any landscaped space. When handled by expert designers and landscapers, you could find that concrete is effectively used for both aesthetics and function. When you come to us for your new landscape, we can offer you a range of different concrete hardscape installations, such as a new concrete patio, concrete pavers or pathways, and even concrete retaining walls and steps.

Rock Installation

By having your new landscape detailed with rocks, you are going to find the perfect way to blend both natural landscaped features, with the added character of hardscaping. At El Paso Landscaping and Design, we know just how to get the best from rock installations and would be able to show you plenty of creative ways to have them applied. From custom designed rock gardens to pebble detailed walkways, even with elegantly crafted rock ponds, our team are the best qualified to apply premium rockery to your landscape.

“The work that El Paso Landscaping and Design did for the gardens in my hotel was fantastic. They really created some stunning looking work and its been noticed by plenty of guests recently. The difference has been huge and I’ll definitely be coming back in the future.” – Oscar T
